

INDEX - 2023 Edition

Our Birmingham 1888 Street Index is a comprehensive INDEX including Streets, Roads, Terraces, Yards, Passages, etc., Public Houses, Hotels, Railway Stations, Hospitals, Schools, Churches, Post Offices, Police Stations, Wharfs and Industry plus many other Places of Interest.

When looking for an ancestor's place of residence, education or worship you can quickly view the alphabetically listed indexes by means of the Book Marks or Links.(The MAIN INDEX lists all places contained on each MAP.)

The adjacent MAP reference in your search i.e. Wellington Cottages and LXVII.12.25, identifies which map you require.

If more information is known, for instance the location (Howard Road), the MAIN INDEX again confirms your MAP.

This simple process of association, by using the MAIN INDEX, identifies your required MAP.

Orders can then be placed by searching for the appropriate MAP using the MAP Reference i.e. LXVII.12.25 in the Midland Ancestors Shop via [Birmingham maps c.1888 - Download \(midland-ancestors.shop\)](https://midland-ancestors.shop)

Maps with 'A' suffix are working copies and therefore maybe less legible, having additional civil engineering information on them.

(HN) Indicates some house numbers are given.

These maps may also include changes to named locations.

Streets or Roads **renamed** are bracketed i.e. **Arthur (George) Road**

The information contained in this document relates to all roads and streets mentioned on the said map.

Some Places of Interest are included along with all Terraces, Places, Walks and Public Buildings.

Back-street 'courts' have not been included as these are referenced by the street they are accessed from.

Some Industrial sites of interest have also been included though not all due to the vast number mentioned.
